Screen Configuration Standardization

Display

Number of colors supported: 16,777,216 colors

Resolution: 1366 x 768 pixels

Screen

Location of standard buttons: At the bottom (vertically) and maybe in the middle, maybe in the right.

Location of the messages: Starting from the top vertically and in the middle horizontally of the frame down to the bottom

Display of the screen title: The title is located at the top of the frame in the middle.

Consistence in expression of alphanumeric numbers: dot for separator of thousand while strings only consist of characters, digits, commas, dots, spaces, underscores, and hyphen symbol.

Control

Size of the text: medium size (mostly 24px). Font: Segoe UI. Color: #000000

Input check process: Should check if it is empty or not. Next, check if the input is in the correct format or not.

Sequence of moving the focus: When there have 2 stack frames, the below frame will be disable. However, the manual is considered a popup message, as the main screen is shown. After the opening screen, the app will start with splash screen, and then the first screen will appear.

Direct input from the keyboard

There will be no shortcuts. There are backs buttons to move back to the previous screen. Also, there is the close button “X” located at the title bar to the right to close the screen.

Error

A message will be given to notify the users what is the problem.
